

GAMES2GETHER™ COOKIES POLICY

Information about our use of cookies

Our website uses cookies to distinguish you from other users of our website. This helps us to provide you with a good experience when you browse our website and also allows us to improve our site.

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree. Cookies contain information that is transferred to your computer's hard drive.

The cookies we use are "functional" and "analytical" cookies. The functional cookies are needed to make the site work. The analytical cookies allow us to recognise and count the number of visitors and to see how visitors move around the site when they are using it. This helps us to improve the way our website works, for example by ensuring that users are finding what they are looking for easily. You can find more information about the individual cookies we use and the purposes for which we use them in the table below. Please note that this table does not represent a definitive list of the cookies we use and is subject to change. You are therefore advised to check this policy regularly.

You can block cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies) you may not be able to access all or parts of our site.

COOKIE	NAME	PURPOSE
Google Analytics	_ga	This cookie is used to distinguish users, it collects information in an anonymous form and expires after 2 years.
	_gat	This cookie is used to throttle request rate, it collects information in an anonymous form and expires after 10 minutes.
Preferences	g2g.front.Forum_HideDevPosts	These cookies are used by the website application to store information about the anonymous and logged in visitor concerning their website display preferences. These cookies have no expiration as they are only local storage.
	g2g.front.Forum_HideSubForums	
User Session	_g2g_identity_	These cookies are used to uniquely identify the user's session on the site and relates the visitor's unique session to server side data. Our application uses the session to track the user's progress in the platform, gives user authorization for the current session or extends a user session. The _g2g_identity_ cookie expires after 30 minutes. The other cookies have no expiration as they are only local storage.
	g2g.front.Refresh	
	g2g.front.Scope	
	g2g.front.Token	
Cookie Acceptance	_g2g_cookie_	This cookie is used to record if a user has accepted the use of cookies on the website. This cookie expires after 1 year.
User ID	g2g.front.User	This cookie generates a unique identifier for registered users. This cookie has no expiration as it is only local storage.
Security	__RequestVerificationToken	This cookie is used to perform security verifications when a form is validated. The cookie will expire at the end of the session (when you close your browser).
